

In today's hyper-connected world, cybersecurity has moved beyond being a technical concern - it is now a global priority. Every sector, from healthcare to finance to government, faces unprecedented risks from cybercrime, data breaches, and digital espionage. The Applied Doctorate in Cyber Security at East Bridge University is designed for professionals who want to lead the charge in protecting organisations, societies, and digital economies. Our online doctorate program in cyber security enables researchers to develop critical analytical skills by blending theoretical applications with real-life practical solutions. The program equips candidates with the skills and knowledge to take on strategic and leadership roles in the cyber security field by enabling them to protect organisations' digital data and infrastructures.

What is an Applied Doctorate?

An Applied Doctorate is an advanced doctoral program that prepares professionals for specialised roles within their fields of expertise. Unlike PhDs, which are typically required for university teaching, an Applied Doctorate focuses on applied learning and practical expertise. Applied doctorate programs can also be called "practitioner" degrees, designed to empower professionals to leverage their industry insights to innovate and apply existing knowledge uniquely.

East Bridge University's online Applied Doctorate programs emphasise independent research tailored to professional contexts. EBU's Applied Doctorate acknowledges a professional's extensive practical experience and expertise in specific areas. Hence, the doctoral research centres on applying existing theories and knowledge to enhance professional practice, preparing candidates for senior roles in the industry.

AN APPLIED DOCTORATE WILL BE THE RIGHT CHOICE FOR YOU IF YOU **WANT:**

- Enhance your expertise in the functional disciplines of your profession.
- Engage in action research addressing real-world issues relevant to your current professional context.
- Offer practical solutions to contemporary challenges.
- Become an authoritative leader in your field of expertise.
- Facilitate constructive industry-wide improvements.

WHY PURSUE AN APPLIED DOCTORATE IN CYBER SECURITY?

In today's digital age, most facets of organisational operations rely heavily on digital assets and structures, which often form the fundamental framework upon which software runs. With the rise in everyday operations relying on digital data, there is also a rising need to develop robust systems that allow for the protection of this data and ensure smooth functioning. Organisations across a varied spectrum, starting from the government sector and financial institutions to healthcare networks and global corporations, feel the need for skilled professionals who are equipped to detect cyber threats, develop systems to protect against data breaches, and build innovative cyber protection systems.

Our Applied Doctorate in Cyber Security, perfectly suited for experienced professionals, provides researchers with a platform to dive deep into the cyber security issues currently dominating the digital world. EBU's online doctorate program enables candidates to develop critical thinking skills and analytical abilities by amalgamating theoretical understanding with practical, real-life solutions. Enhancing academic and professional credibility, the Applied Doctorate in Cyber Security opens up various career opportunities globally in leadership and management positions, and enables professionals to become thought-leaders in their specific fields.

Course Structure

Coursework 1: (15 Credits)

Conducting Accurate Internet Research

Coursework 2: (45 Credits)

✓ Introduction to Research (15 Credits)

✓ Crafting Your Research (30 Credits)

Dissertation: (90 Credits)

√ 10,000-word Research Paper

Viva Voce / Thesis Defense: (30 Credits)

About East Bridge University (EBU)

East Bridge University is a global higher education institution that offers online and affordable degree programs, diplomas, and certified courses to all. Tailored to meet the evolving needs of the 21st century, our programs offer a unique blend of robust theoretical knowledge and practical, real-world exposure. We aim to empower adult learners and professionals with the best industry-specific courses that enable them to navigate the dynamic and ever-evolving professional landscape seamlessly. At East Bridge University, we greatly foster critical thinking, analytical skills, and leadership qualities among our students.

East Bridge University is legally incorporated in Paris and has received authorisation from the Rector Office of the Paris Academy, which is under the jurisdiction of the Ministry of National Education. This prestigious recognition positions EBU as a legitimate, respected, and independent distance learning institution.

What Makes Our Programs Unique?

Find work-life balance with our online, flexible program.

ς Get the opportunity to conduct action-based research work, solving real-world challenges.

Become an industry expert and thought leader in your field.

The course is endorsed by global partners and education bodies.

Enhance your career prospects $\hat{\mathbb{D}}$ by earning academic credentials.

Open your doors towards doctorate-level academic pursuits.

Gain a deeper understanding of the functional disciplines of your profession.

Be able to promote positive change and growth in your industry.

Address real-world problems with a strong academic understanding.
