APPLIED DOCTORATE IN PSYCHOLOGY

Designed for seasoned professionals wanting to further their knowledge in the academic and professional field of psychological practices, the Applied Doctorate in Psychology at East Bridge University (EBU) is a prestigious, research-driven degree. This doctoral program equips graduates with the skillsets that enable them to face complex and challenging problems within the domain of psychology by skillfully combining advanced academic study with practical, real-world research. Pursuing a doctorate program in Psychology enables researchers to delve deep into contemporary challenges that govern the therapeutic and counselling practices across various spectrums. Backed by original research, an Applied Doctorate enhances the academic credentials of an individual, along with opening up various career pathways with increased potential in both academic and professional settings.

WHAT IS AN APPLIED DOCTORATE ?

An Applied Doctorate is an advanced doctoral program that prepares professionals for specialised roles within their fields of expertise. Unlike PhDs, which are typically required for university teaching, an Applied Doctorate focuses on applied learning and practical expertise. Applied doctorate programs can also be called “practitioner” degrees, designed to empower professionals to leverage their industry insights to innovate and apply existing knowledge uniquely.

East Bridge University’s online Applied Doctorate programs emphasise independent research tailored to professional contexts. EBU’s Applied Doctorate acknowledges a professional's extensive practical experience and expertise in specific areas. Hence, the doctoral research centres on applying existing theories and knowledge to enhance professional practice, preparing candidates for senior roles in the industry.

AN APPLIED DOCTORATE WILL BE THE RIGHT CHOICE FOR YOU IF YOU WANT:

- » Enhance your expertise in the functional disciplines of your profession.
- » Engage in action research addressing real-world issues relevant to your current professional context.
- » Offer practical solutions to contemporary challenges.
- » Become an authoritative leader in your field of expertise.
- » Facilitate constructive industry-wide improvements.

WHY PURSUE AN APPLIED DOCTORATE IN PSYCHOLOGY?

Applied Doctorate in Psychology is more than just a scholarly accomplishment; rather, it is a professional milestone that qualifies an individual as an expert in the knowledge, research, and resolution of complicated human behaviour in real situations. Unlike conventional doctorates with a strong emphasis on theory, an applied doctorate emphasises practical problem-solving, allowing you to bridge the divide between research and professional practice.

Experienced psychologists, counsellors, teachers, HR leaders, and organisational consultants looking to raise their influence are perfectly suited for this program. The program also elevates professional credibility by providing a doctorate degree with worldwide recognition, opening doors to senior leadership, policy development, academics, and consulting. It gives you the power to change, whether it involves creating employee well-being initiatives, influencing educational systems, recommending governmental policy, or improving mental health plans.

Pursuing an Applied Doctorate in Psychology gives you not only academic credibility but also the pragmatic abilities, strategic insight, and professional authority to significantly impact people's lives, corporations, and society at large.
